Gold-plated shield	SR 587	R06-0824
Shield 2/3, EN 3	SR 588-1	R06-0825
Shield 2/3, EN 5	SR 588-2	R06-0826

Product Description

These shields are intended to use together with the Sundström SR 580 Helmet with visor.

The gold-plated shield is used as a heat protection when work is performed in extreme heat. The gold-plated shield is coated with a thin layer of gold, which results in that the radiant heat will greatly be reduced. It can with advantage be used together with Sundström SR 585 Neck and chest protection or Sundström SR 583-1 Heat protection.

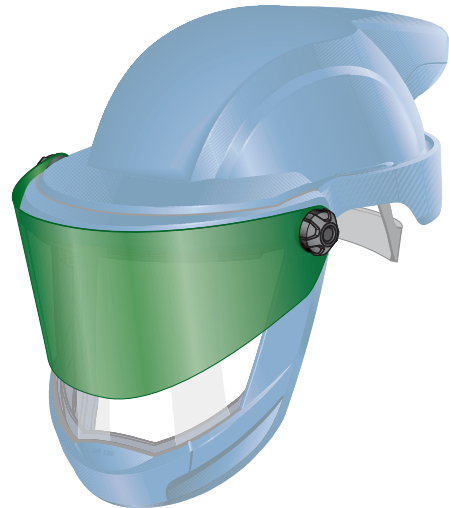

The shields 2/3 protects against light emissions arising during welding and cutting operations in two different shades. The shields have also a very good optical clarity. At daily welding work, we recommend Sundström SR 584 Welding shield that also is mounted on SR 580 Helmet with visor.

Technical Specification

	SR 587	SR 588-1	SR 588-2
Material	Polycarbonate and hard coated gold with IR-protection	Cellulose acetate with IR-protection	Cellulose acetate with IR-protection
Weight	220 g	80 g	80 g
Shade	EN 5	EN 3	EN 5
Service temperature	-10 – +55 °C, < 90 % RH	-10 – +55 °C, < 90 % RH	-10 – +55 °C, < 90 % RH
Storage temperature	-20 – +40 °C, < 90 % RH	-20 – +40 °C, < 90 % RH	-20 – +40 °C, < 90 % RH
